Professional Summary

Senior Full-Stack Engineer with 10+ years shipping web and mobile products across banking, fintech, aviation, and e-commerce. **Angular** specialist (15 → 21, Signals, RxJS, NgRx, Nx) with production mobile delivery through **Ionic, Capacitor, and React Native** to Google Play and the App Store, extending across the stack with **Node.js, NestJS, GraphQL, and PostgreSQL**. Led front-end teams at three companies, owning architecture, code quality, CI/CD, and release pipelines end to end. Founder of Itqan Lab, a design-and-engineering studio serving clients across three continents.

Core Skills

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, SQL
- **Front-End:** Angular (15 → 21), Angular Signals, Standalone Components, RxJS, NgRx, Micro Front-ends, Nx Monorepo, Vite, React 19, Next.js, Vue.js, Vuex, AngularJS, jQuery
- **UI & Design Systems:** Angular Material, PrimeNG, Bootstrap, Tailwind CSS, Design Systems, Responsive Design, Accessibility, RTL / Arabic Localisation
- **Mobile:** Ionic, Capacitor, React Native, Cordova, NativeScript, Google Play & App Store release
- **Back-End & Data:** Node.js, NestJS, GraphQL, Apollo, Hasura, PostgreSQL, Firebase, FCM, REST APIs
- **DevOps & Cloud:** Docker, GitHub Actions, CI/CD, Git / Git Flow, Traefik, Cloudflare, Hetzner, Dokploy, Firebase Hosting
- **AI & Automation:** LLM agent tooling, Model Context Protocol (MCP) servers, AI feature integration
- **Design:** Figma, Adobe XD, Photoshop, Sketch, Zeplin

Experience

Itqan Lab | Founder & Principal Engineer

Jan 2026 – Present (Nights & Weekends)

Cairo, Egypt (Remote)

- Founded a design-and-engineering studio delivering web, mobile, and e-commerce products for startups and scaling companies across three continents.
- Deliver full-stack builds end to end — **Angular, React, Next.js, Node.js, TypeScript** — alongside product strategy, design systems, and brand identity.
- Run the production platform: Dockerized services on Hetzner behind Traefik and Dokploy, Cloudflare DNS and TLS, PostgreSQL and MinIO, with GitHub Actions CI/CD across **10+ production services**.
- Build internal AI tooling — **Model Context Protocol (MCP) servers** in Node.js and agent-driven automation for delivery, operations, and reporting workflows.

Social Development Bank (SDB) | Senior Front-End & Mobile Engineer

Aug 2025 – Present

Saudi Arabia (Remote)

- Build and maintain the bank's customer-facing web and mobile applications — live on **Google Play and the App Store with 500K+ downloads**.

- Work across an **Angular 15** → **21** estate in **Nx** workspaces: a 337-component **Ionic/Capacitor** mobile app, the lending portals, and **Tawakkalna services integration**.
- Architect the modern front-end with **Angular Signals**, **standalone components**, **RxJS**, and the **Vite-based application builder**, using clean architecture and shared component libraries.
- Build cross-platform mobile in both **Ionic/Capacitor** and **React Native (0.83 / React 19)**, delivering to Android and iOS.
- Integrate secure banking APIs with backend teams, deliver responsive, accessible, Arabic/RTL-ready interfaces, and contribute to architecture and code review.

Miramar

Jun 2023 – Sep 2025
United States (Remote)

Senior Front-End Engineer — Freelance

Jul 2025 – Sep 2025

Senior Front-End Engineer — Full Time

Jun 2023 – Jul 2025

- Built **Prio**, a US payments product that lets businesses send money and payment requests by link — recipients confirm bank details by text, no app required — removing card processing fees for merchants.
- Delivered features across the full stack: **Angular** and **NativeScript** clients, **Node.js / NestJS** services, **Hasura + GraphQL**, **PostgreSQL**, and Firebase, in an **Nx** monorepo.
- Contributed to code review, sprint planning, and release standards on a distributed US/Egypt team.

Intigral – Saudi Telecom Company (stc) | Senior Front-End Engineer

May 2023 – Apr 2024

Saudi Arabia (Remote) · concurrent with Miramar

- Built and maintained internal enterprise systems on **Angular v14+** using a **micro front-end** architecture with **NgRx**, Angular Material, and Bootstrap.
- Applied Git Flow and structured code review, and rolled out responsive design standards across internal tooling.

TILDE Technology | Front-End Team Lead

Feb 2022 – Feb 2023

Maadi, Cairo, Egypt (Hybrid) · concurrent with Sheen (Shura Solutions)

- Led front-end development of the **NDC B2B flight-booking platform** for Wonder Travel — an IATA/ASTA/AFTA member ranked top-5 with most airlines since 2018.
- Delivered two mobile apps including **Elzatoonah**, a price-comparison shopping app for offers across nearby retailers.
- Managed a front-end team of 4 engineers: development flow, task allocation, code review, requirement-gathering with business stakeholders, and delivery estimates.
- Owned the CI/CD deployment pipeline and the Android/iOS release process on Google Play and the App Store.
- Stack: Angular 13, AngularJS, Ionic, NgRx, PrimeNG, jQuery, JSP, Bootstrap.

SPLENDID ADS LLC | Senior Front-End Engineer

Dec 2020 – Sep 2021 (Part Time)

Cairo, Egypt (Remote) · concurrent with Sheen (Shura Solutions)

- Built and enhanced UI for client web applications using AngularJS, JavaScript, jQuery, Ajax, HTML5/CSS3, and Bootstrap.

Sheen Information Technology (formerly Shura Solutions)

Sep 2019 – Feb 2023
Maadi, Cairo, Egypt (On Site)

Front-End Team Lead

Sep 2020 – Feb 2023

Senior Front-End Engineer

Sep 2019 – Sep 2020

- Delivered the Egyptian national implementation of **GS1**, the global supply-chain standards platform used by member organisations in 110+ countries.
- Led the front-end team of 4 engineers — task planning, code review, delivery estimation, and direct requirement-gathering with business stakeholders.
- Owned the full deployment pipeline with CI/CD integration and the Android/iOS release process on Google Play and the App Store.

La Reina | Senior Front-End Engineer

Oct 2018 – Sep 2019
Cairo, Egypt (On Site)

- Built the web and mobile platform for **Egypt's first online fashion-rental marketplace**, connecting dress owners with renters across browsing, booking, and rental management of a designer inventory.
- Stack: **Vue.js**, **Vuex**, **GraphQL**, **Apollo**, JavaScript, jQuery, SCSS, Bootstrap.

361 Degrees | Senior Front-End Engineer

Feb 2018 – Feb 2020 (Freelance)
Cairo, Egypt (Remote)

- Built and enhanced UI for client web applications using AngularJS, JavaScript, jQuery, Ajax, HTML5/CSS3, Bootstrap, and animate.css.

Earlier Experience

May 2015 – Jun 2018

- **Kick Start Interactive | Front-End Engineer** — Oct 2017 – Jun 2018, Giza, Egypt. Client web apps across automotive, construction, and e-commerce, including **SI-UK**, a UK university application platform. AngularJS, jQuery, Bootstrap.
- **Intermark | UI Developer** — Nov 2016 – Oct 2017, Cairo, Egypt. Health-and-wellness brand platforms built with design, backend, and marketing teams.
- **Al-Yasser Group | UI Developer** — Oct 2015 – Oct 2016, Cairo, Egypt. Responsive interfaces for multi-client web projects.
- **3A International Group | UI Developer** — May – Jul 2015, Alexandria, Egypt. Client web interfaces with HTML5/CSS3, JavaScript, jQuery, and Bootstrap.

Education

Bachelor of Management Information Systems — Madina Academy
Cairo, Egypt

2014 – 2018
